

Email Scanner – Freedom from Spam Mail

Have you Computed Cost of the Spam?

With its unique databases of know Spam and Spammers updated every few minutes, Email Scanner blocks 90-95% of Spam without blocking legitimate emails.

Fully Managed Service Features

- Effective and accurate – blocks 95% of Spam, and passes 99.99% of legitimate email
- Unique databases updated every 10 Min to stop latest Spam campaigns.
- Does not filter based on simple phrases or “trigger” words. Allow any content.
- Stops more Spam by using popular Real-time blacklists (RBL’s).
- Option Domain-specific Whitelist and Blacklist.
- High Scored Spam gets Quarantined and can be released later
- Improves your email reliability – each customer is connected to redundant servers at Internet datacenter. Auto-store and forward
- Free Antivirus Scanning

How Do I Start?

Ours is a hosted solution and it is really simple to get started

- No Hardware or Software to be installed.
- No Expensive changes to be made.
- No need to change your existing service provider.
- No need for maintenance or training at your end.
- We just need to change your Domain MX Pointers and you are ready to say “No! to Spam”

How does it Work?

“Email Scanner” is hassle free and easy to implement. I have not had any complaints (at my firm of 500 people) about missed or blocked emails. It requires no maintenance on my part. Before the service, we use to receive 3000-4000 spam emails a day; we have received 5-10 spams in last 1 Week”

S. V. Bharat
System Director,
Madison Communications Pvt. Ltd.

“Your Service is just great. Dealing with e-mail was increasingly an exercise in frustration due to all the Spam, but your service has eliminated virtually all of it. It’s really enhanced my productivity and reduced my frustration.”

Before the service, we use to receive 1000-15000 spam emails a day; now we receive 4-5 Spam a day.
